From a parliamentary document recently published ce derive the following statistics relative to the rade between the United Kingdom of Great Britain \$1,200 a year. and Brazil: In 1850 the principal imports into Great Britain from Brazil were cocoa, 1,364,572 pounds; is 1852, 2.244,713 pounds; in 1855, 656,273 pounds. offee in 1850, 1,782.825 pounds; 1851, 7,888,638 sounds; 1852, 3.053,202 pounds; 1853, 5,923,879 pounds; 1854, 10,426,000 pounds; 1855, 12,543,-343 pounds. Raw cotton, 1850, 30,300,033 pounds : in 1852, 26,506,144 pounds; in 1855, 24,577,952

During a period of sixteen years we find, on referring to the State Department Report on Foreign Compercial Relations, that the highest quantity of raw cotton imported into Great Britain from Brazil was a little over 30,000,000 pounds, in 1849, and the lowest over 14,000,000 pounds, in 1846. The following tathe will show the precise extent of this trade from

Table showing the quantity of Raw Cotton imported into Great Britain from Brazil from 1840 to 1855, both years inclu-

	TO THE PARTY OF TH

The average annual crop of Brazil seldom exceeds 30,000,000 pounds, the large bulk of which is sent to England. In reference to the cultivation of this article in Brazil, the State Department Report, already referred to, says: "As regards the cultivation of cotton, it is well known that several insuperable drawbacks to its extension exist in Brazil. Among hese may be named the ravages of insects, the pecuharities of the climate, and the expense and difficulties attendant upon its transportation from the interior to the coast. Many years ago it was ascertained in Brazil that the cotton plant will not flourish near to the sea, and the plantations have, in consequence, receded further inland, as well to avoid this lifficulty as to seek new and fresher lands."

The principal exports from Great Britain to Brazil are cotton manufactures. In 1850 these amounted in value to \$12,724,185; in 1853 to \$15,932,035; and in 1855 to \$16,563,640.

The preceding statistics show a gradual decline in the quantities of raw cotton imported into Great Britain from Brazil, amounting in 1855, compared with 1850, to upwards of 6,000,000 pounds, or 20 per cent. on the total quantity. The exports from Great Britain to Brazil consist chiefly of cotton goods. in which the American manufacturer has, within the past few years, proved quite a formidable competitor : so much so that the only obstacle in the way of complete success is the advantage which the looms of Manchester have over those of the United States in the manufacture of cheap cottons. We are the largest purchaser in the world of Brazilian produce, and there is no good reason why we should not also be the largest seller in the markets of that empire.

A TOUCHING EULOGY.

The following is an extract from a private letter from the Hon. A. G. Brown, of Mississippi, written immediately after hearing of the death of two of his olleagues in the Senate of the United States-the Hon. A. P. Butler, of South Carolina, and the Hon. Stephen H. Adams, of Mississippi. It is so just a tribute to the deceased, and so characteristic of the writer, whose long political career has neither changed his impulsive nor chilled his generous heart, that we place it in our columns :

"I have this moment heard, with the deepest regret, of the death of Judge Butler. The Senate could have lost no other memoer whose place will be so diffuse it in the significant of the content of the conte jurist, an experienced and se

MOVEMENT OF TROOPS

The New Orleans Delta of the 20th says:

"The steamship America, Captain Nelson, arrived last evening from Florida, bringing from Fort Myers, Punta Rosa, Pavilion Key, and Cape Sable, companies B, C, E, F, and K, 5th infinity, 480 men in numbers, and the following officers: Captain C. C. Sibley, commanding: Captain Brent, Major N. B. Russell, Captain J. C. Robinson, Captain H. B. Selden, 1st Lieut, B. Wingate, A. A. C. S. and A. A. Q. M., 1st Lieut. W. H. Lewis, 2d Lieut. L. L. Roch, 2d Lieut. — Hill, 2d Lieut. J. F. F. Rit-ter, act. adjutant, Assistant Surgeon A. C. Ridgley.

They are en route for Jefferson Barracks."

THE STEAMSHIP CANADIAN.

rom the Montreal Gazette, June 23 :

"the contowning account of the cose of this line seamsing is from the Montreal Gazette, June 23:

"The Camadian sailed from Liverpool on the 20th May, with about one-third of a cargo of goods, and a large number of passengers. She made a splendid run out, and took a branch pillot on board below the island of Bic, and put her news ashore at river Du Loup on Sunday afternoon, in eleven days from Laverpool. The vessel then proceeded on her way up the river.

"The evening was calm, clear, and cloudless; the moon had passed the first quarter, and it was almost as light as day. In passing through the traverse, the Pillars light became visible at a distance of eleven or twelve miles, and the vessel's course was directed towards it. Soon afterwards the captain went below, leaving the second officer on the bridge with the pilot. As the vessel acared the Pillars light, the officer asked the pilot if he was not approaching it too closely, and reminded him of the half-tide rick near it. His reply was, that he knew what he was about; and then ordered that he was too hear the light, but still thought he had time to cross over before coming to the half-tide rock. The steamer, however, must have been going faster than he calculated, for though she obeyed her helm at once and came round, the ran full on the rock, her bow being then pointed discreting a complete of the purchasing mules and horres. He widently provided the pilot discreting the provided discreting the product of the pilot of the was not approaching it too closely, and reminded him of the half-tide rock near it. His reply was, that he knew what he was about; and then ordered that he was too hear the light, but still thought he had time to cross over before coming to the half-tide rock. The steamer, however, must have been going faster than he calculated, for though she obeyed her helm at once and came round, the ran full on the rock, her bow being then pointed discreting the pilot of the pilot of the pilot of the he ran full on the rock, her bow being then pointed di-

THE CROPS IN EIGHT OR NINE STATES. A letter from Georgia says that they are in the midst their wheat harvest, and that, both as to quantity and quality, it is the best ever had in Georgia. An average

Cotton is not looking so well in Georgia or in Mississip but pretty well in Alabama generally.

Visitors from North Carolina bring flattering the wheat crops, but sing a different tune for the corn, which is represented as small and sickly as yet.

In Virginia the millers adhere to the rule of last year

and refuse to buy for future delivery. Purchases of nev wheat for July delivery have been made in Fredericksherer at \$1 50 per bushel.

The Galveston (Texas) Herald states that "a sack of new flour was received at Galveston on Saturday, June 13th, from Brazoria, the first fruits of the season, and the forerunner of millions to follow."

An Iowa correspondent writes, June 15th, that wheat

nises an average vield; that corn, oats, grass, &c. look promising for an abundant yield, and fruit of all kinds plenty, except peaches. Number of stock hogs about as last year. But few potatoes planted, owing to the high price of seed. Corn selling at 75 cents, and scarce; wheat, \$1 50, potatoes, \$2 a \$2 25 per bushel. From the centre of Indiana, where we saw the other day thousands of hogs feeding in the rich fields of clover,

"I have resided on Fort Harrison prairie for thirty even years, and have been a close observer of the season seven years, and have been a close observer of the seasons and crops. I have never known a more favorable appearance for a large and abundant crop of everything. As to the growth, it is fine beyond conception; and everything that is capable of bearing a blossom or bul, from the shortest twig to the tallest tree, seems to try to excel in its abundance. If the season continues favorable it seems as though the western world will grown under the metable of its resolutions, and its generative will be

In Alabama the corn varies from half a leg to a little over knee-high, and is looking well. Should it not be cut off by drought when maturing, there will be plenty raised to meet the ordinary wants of the country.

A letter from Troup county, Georgia, June 18, speaking of the neighboring country there and in Alabama

Wheat is now being harvested, and is said by all persons to be the very best crop ever made in this latitude. Oats, rye, and barley are equally as good, and a much larger crop than usual sown of all these smaller grains. New wheat has been selling freely at \$1 per bushel, but buyers have now quit the market, believing that it will soon rule lower—say 70 to 80 cents. Corn, though backward, looks remarkably vigorous of stalk and

Of the rains north and west we read that the oldest settlers in Minnesota never witnessed anything to comno other member whose place will be so difficult to fill. A pace with them. The night of the 14th, the quantity of damage was done to property along the rivers and streams. In Michigan and Northern Ohio and Pennsylvania considerable property has been destroyed, and the protracted wet and cold weather are disheartening to the farmers.

> THE NEW JERSEY FRUIT CROP. -The Monmouth Inquirer says it has contradictory reports concerning the fruit crop in that county. The impression is that the yield of peaches and apples will be by no means large. Small feuits will be tolerably abundant. Wheat is poor; oats quite ordinary; corn and potatoes about middling. Garden products and truck bid fair to be hardly an average. On the whole, the unfavorable spring has told disastronsly on the prospects of the year, and a large number of fruit and other trees were killed by the severity of the

From the Detroit Free Press. ANOTHER REVEREND FREMONTER.

In Carroll county, Ohio, recently, Rev. Joseph Bar-clay was found guilty of the seduction of Elizabeth Sharp, and also of breach of promise of marriage, and was mulcted in damages to the amount of \$5,000. The defendant was a preacher of the covenanter or seceder faith, and was one of the leading Fremont Kansas-shricking preachers of Carroll county. A local paper says that "the evidence on the trial showed that he had for some time been paying his addresses to Miss Sharp, an accom-

ver, must have been going faster than he calculated, for, bough she obeyed her helm at once and came round, he ran full on the rock, her bow being then pointed discetly across the river.

"The surveyors recommended the vessel to be platform, all of easterly wind coming on broke up the platform, all of easterly wind the platform, all of easterly wind the real full on the rock. This was done; but a distinct of the wind the platform of t

GENERAL SUMMARY.

The increase of ocean steamers may be regarded as one of the most remarkable features of the age. But a few years have gone by since the first experiment was made, and now these extraordinary agents of commerce and travel may be counted by hundreds. According to a list before us, there are no less than 14 steam lines between Europe and America, which make five hundred and eighty-six trips per annum. The steamer Clyde, remitted to the contract of the most remarkable features of the age. But a few years have gone by since the first experiment was made, and now these extraordinary agents of commerce and travel. Europe and America, which make five hundred and eighty-six trips per annum. The steamer Clyde, run-ning between Quebec and Glasgow, and several other ir-regular or transient steamers, are not included in this list. The aggregate is quite sufficient to allow a calculation of upwards of five steamship departures per week from America to Europe, and an equal number from Europe to America. Soon, no doubt, we shall have a daily line from each side of the Atlantic, the larger part of which will arrive at and depart from New York. The German steamers are commonly doing a good passenger-business, steamers are commonly doing a good passenger-business and a heavy freight is carried by the Havre and some of the Liverpool liners; but it is evident that the amoun of business offering is quite inadequate to the mainte nance of so large and expensive a steam fleet, in addition to the sailing fleet, with which they are in direct compe-tition. The Journal of Commerce, from which we gain the above facts, very justly remarks: "How this strife for the mastery of the ocean will eventuate is left for the future to determine."

Thoors Leaving this Criv for Utan.—A force of one hundred and ninety-two recruits left Governor's Island several days ago for Utah, via the New York and Erie milroad. Before moving into the Territory, they will remain some time at Fort Leavenworth, Kansas, where they will be attached to the several regiments destined for Utah. The recruits sent from New York, for this purpose, belong to what is called the general service—that is, they are liable to be draughted into the artillery, infantry, or other class of soldiers.

Two hundred or two hundred and fifty recruits will leave here for the same field of operations next Monday. The entire force destined for the Mormon territory will consist of three regiments—two of infantry and one of cavalry—numbering about 2,500. This army is considered large enough to keep the turbulent people of that region in order. The appointment to the command has not yet been made public.—Journal of Commerce.

The Gallatin (Tennessee) Examiner learns that a most

The Gallatin (Tennessee) Examiner learns that a most destructive rain fell between Carthage and Dixon Springs on Monday last. The oldest inhabitant has no recollection of just such a one. Stone fences, corn, and the crop-were swept away in a few minutes. Upon hillsides, where there were no streams, fences were rapidly carried off. About four miles of the tumplike were nearly de-

The tunnel st suddenly fell in, and almost the whole of the laborers who were at that moment at work were either crushed to death or stifled. About 50 are believed to have perished. THE GRAIN CROPS IN ALABAMA. - The Selina (Alaban

Sentinel says that the grain crops in that State were never more abundant, nor of a better quality, and predicts that flour, in less than three months, will be sold at \$3 per hundred, and corn at 50 cents per bushel.

Valuable Farm and Water-power for Sale.

Valuable Farm and Water-power for Sale.

HIE undersigned offers at private sale a very destrable farm, containing about 540 acres. It is located at the southeast extremity of Charles county, Maryland, and is bounded on the south by the Potomac river, on the east by the Wicomico and at the mouth of which there is sufficient current to propel miles on any desirable extent.

The hards are well adapted to the growth of corn, wheat, and to-bacco 2 and, from the abundance of sea grass that amountly fleats on its shores and the quantity of shelts that are on it, could be made one of the richest farms in the country. There is a superabundance of each, and a combrabbe dwelling-house, latchen, quarters, cornouse, stables, and a large bayen, all ugod order. Oysters, fish, and wild fowl are abundant. Communications to Baltimore and the Pictrict of Columbia are almost daily.

United States Patent Office,

ON the petition of Henry Burt, of Newark, New

On the petition of Henry Burt, of Newark, New Jersey, praying for the extension of a patent granted to him the 23s of September, 1843, for an improvement in "Ruiting machines," for seven years from the expiration of said patent, which takes place on the 23st day of September, 1857.—

It is ordered that the said petition be heard at the Patent Office on Monday, the 14th of September next, at 13 o'clock, m., and all persons are notified to appear and show cause, if any they have, why said petition ought not to be granted.

Persons opposing the extension are required to file in the Patent Office their objections, specialty set forth in writing, at least twenty days before the day of hearing; all testimony filed by either party to be used at the said hearing must be taken and transmitted in accordance with the rules of the office, which will be furnished on application.

tion.

The testimony in the case will be closed on the 4th of September depositions, and other papers relied upon as testimony, must be died in the office on or before the morning of that day; the arguments, if any, within ten days the reafter.

Ordered, also, that this notice be published in the Union, Intelligencer, and Evening Star, Washington, D. C.; Republican, Beltimore, Md.; Parriot and Union, Harrisburg, Pa.; Daily News, New York, N. Y.; and Post, Boston, Mass., once a week for three successive weeks previous to the 14th day of September next, the day of hearing.

CHARLES MASON,

P. S.—Eiltors of the above papers will please copy, and send bills to the Patent Office, with a paper containing this notice, June 27—lawdw
